

Mobile Machine Service

Welcome to Mobile Machine service.

WCE's have provide an extensive range of precision portable machining equipment and specialist skills and consists of a team of highly skilled design engineers and technicians, combined with years of site-related experience in industry.

Why choose Mobile Machine.

Mechanical breakdowns can be costly especially if your equipment needs repairing quickly. Onsite machining could be the answer. If your equipment is too large, costly or impractical to remove from your site then bringing machine tools to you could be a cost effective solution to get the job done. If time is a factor, around the clock machining on-site could see your production back up and running in the shortest time possible.

We offer a wide range of Mobile machine services as follows :

- ✓ Boring Machine
- ✓ Lathe Machine
- ✓ Milling Machine
- ✓ Circular Milling Machine
- ✓ Flange Facing Machine

We also have a large mobile machine for facing, milling, boring, lathe and others to go to service at a customer's factory.

- We service more than 500 Jobs.
- Staff knowledge and skills.
- Tool and Special tool.
